Our Annual Report (2018) is available for reading on our school website. Detailed in this report is information regarding achievements of our students, results of evaluations, educational targets that have been established and a range of school profiles.

Don't Share your Sign In Pin - Security

Please ensure if there is someone new picking up your child that we know their name, phone number and they bring along photographic ID. Please don't share your own pin for others to sign your child out.

Rain Coats - Please pack

Please ensure a raincoat and a jumper is packed in your child's bag. We'll still be playing outside on cold days and with the juniors having to cross the road the need for coats is important.

Programming - Re Use

Our first wet week for a while but the children have been loving Puppetry with Eleanor, Gardening with Kiri, (where we have rescued old plant pots from council clear ups and children have planted herbs for their gardens at home), Yoga with Angela and creating giant marble runs!

The Benefits of Music Lessons for Kids Part 1

Learning to play an instrument is a fun and rewarding activity, but did you know that it also helps develop important life skills and boosts their brain power? Whether your child is the next Mozart or not, studying music in the primary school years can have numerous benefits!

Build Confidence

Before your child has mastered their instrument, they must learn to accept criticism and overcome challenges. This can help to build self-confidence, which can enhance all areas of life.

Boost Brain Power

Numerous studies have suggested that studying music stimulates parts of the brain that are linked to maths and cognitive abilities, which may give your child an advantage in the classroom.
