

**KINDERGARTEN OVERVIEW****HOME LEARNING RESOURCES****Reading, Writing and Spelling**

Name	Information	Possible Uses
A to Z Alphabet Handwriting worksheets	Alphabet letter formation guide	-place in plastic sleeve/write and wipe plastic sleeve to practice letter formation and fine motor skills
Butterfly card	writing card	-to assist with writing activities and support letter/sound correspondence.
Lowercase alphabet manipulatives	Letters for forming words and sentences	- These can be printed in multiple to create words and simple sentences. Cut them out to create letter tiles. - letter and sound recognition
Uppercase alphabet manipulatives	Capital letters for words and sentences	- For use when sentence making - every sentence begins with a capital letter. -matching upper case to lower case letters.
Targeted Handwriting Book	Guided textbook with sequenced letter formation	-activities will be set each week on Monday and Wednesday in the learning grid. A video with explicit instruction will be uploaded to Seesaw.
Alphabet for Tracing Uppercase	Outline of the alphabet in uppercase for correct formation	-to practice writing letters in the correct formation, size and shape -can be placed in a plastic sleeve/write and swipe plastic sleeve for repeated use
Alphabet for Tracing Lowercase	Outline of the alphabet in lowercase for correct formation	-to practice writing letters in the correct formation, size and shape -can be placed in a plastic sleeve/write and swipe plastic sleeve for repeated use

Mathematics

Name	Information	Uses
0-30 Number manipulatives	Numeral and number recognition to 30	-used for counting forwards and backwards to 30. -number and numeral recognition. - matching numbers to 10 frames.
10 Frames	To develop number sense to 10	-using counters or similar to show a number. Students fill top row first left to right and then go to second row left to right.
Dice net	Numerals 1-6	-can be printed, cut out and stuck together as a dice alternative for games, adding and subtracting. -print 2 dice and add the numbers together
Number lines	0-10 number line 0-20 number line 0-30 number line	-using number lines for counting forwards and backwards to 10, 20, 30. -adding and subtracting numbers. -put the sheet into the write and swipe to use again and again.
Printable Dominoes	1-6 dominoes	-use for adding and number recognition. -match the amount on the domino to a number card.

		-print multiple copies for snap, memory style games.
Subitising flashcards	Rapid, accurate recognition of numbers.	-helps with quick recognition of numbers and small amounts of items. -use as flashcards, memory style games for quick recognition
Tangram Task Cards	Square made of 2D shapes	-use for 2D shape recognition -use to make patterns and pictures - many patterns for animals and objects can be found on the Internet or Pinterest
0-10 Number Formation	Outline of number 0-10 for correct formation	-to practice writing numbers in the correct formation, size and shape -can be placed in a plastic sleeve/write and swipe plastic sleeve for repeated use
Numeracy Games - Mountain Race - Number match - Rainbow fact addition game - Treasure Chase	Variety of mathematical games to play	-use with a dice and counters to reinforce simple number concepts such as addition subtraction and number awareness
